Tox-Elim

Retail Price \$20.00

May/June Special \$10.00

**The best 'spring cleaning'
you will do all year.**

Toxic Waste

Inside and Out

Toxic wastes are an incredible problem in our country. They threaten our water, our air and our lives. We must find better ways to handle toxic chemicals and dispose of the toxic waste products of a materialistic society. Unfortunately, we have just begun to recognize the dangers posed by years of irresponsible attention to our waste problems. Now we are trying to move waste from one area to another - move a toxic waste dump to another area, hopefully less populated.

You must recognize that this doesn't solve anything. Because one way or another the toxic waste will pollute whatever area you put it in - bury it in the ground and it ends up in your water supply, blow it up in the air and it comes down as acid rain, dump it in the ocean and you pollute one of our major food supplies. Our technology is such that we could make these wastes into neutral or non-toxic substances with further chemical breakdowns. Such procedures cost money and business doesn't like to spend money. **But you can do something about the toxins in your environment...**

CRP - Heart Disease - Inflammation

I was recently reviewing considerable research on heart disease, since I have just completed a new book entitled *“Heart Disease Is Not A Life Sentence”* and subtitled *“Your High Blood Pressure Medicines Are Killing You”*. The book will be available in 60 days from the Donsbach Foundation and may give some of you food for thought, particularly when it comes to taking medicines that are shortening your life and reducing your enjoyment of life rather than the opposite.

Weight Loss (Easy Loss) Few Complaints & Many Hoorays

We recently introduced our new weight control product - Easy Loss. I formulated it and proved it worked on myself, losing 30 pounds. In the brochure I wrote for the product, I mentioned that the only side effect anyone had ever discussed with me was the slight nausea that occurs in about 20 percent of users but that it almost always disappears in just a few days.

It is never a real sick nausea, just a slight feeling of queasiness. My advice to the ones that asked me: “Work through it because in a few days your stomach feels fine and you are losing weight at the rate of 3 pounds per week. It's worth it!”

Most comments were nothing but good, one lady lost 19 pounds the first month and many reported losses of from 5 to 15 pounds in 30 days. It is a real winner because you lose your appetite and feel emotionally uplifted because of the increased production of serotonin, the happy hormone. This is a safe and positive way to lose weight, while getting benefits in many other areas such as blood pressure and diabetes. It contains no nervous system stimulants.

Are You Looking for Prostatol?

An important message from Dr. Kurt Donsbach

Many of you have emailed or phoned to say that you can no longer find Prostatol on the Let's Talk Health website (www.letstalkhealth.com).

I have decided to sell the product through Humberto Barbosa, M.D., who has worked with me for the past 12 years in alternative medicine. You will be treated with the same customer service you have enjoyed with Let's Talk Health and I personally guarantee your dealings with him.

As you are probably well aware, most of the users of Prostatol are doing so to reduce PSA numbers. Prostatol has been so successful in doing so that we have heard the government would like to classify it as a drug under the FDA law that says anything that is used to prevent, mitigate or cure a disease is a drug and must be registered and approved. In the United States, it would cost \$200 million dollars to do so – essentially eliminating Prostatol from the market.

In the past, we registered this product in Holland and Mexico as a natural medicine with approval granted in both countries. Unfortunately, the U.S. does not have such a category. So, in order to guarantee that you will have an uninterrupted source for Prostatol, a medical supply company in Mexico called Huvika will be shipping the product with a licensed physicians prescription under the “Compassionate Drug Act” in the US which allows medicines not licensed in the US but prescribed by the foreign physician for personal use to be shipped into the United States.

This has created a maximum order of the 5 bottles at one time and a minimum order of 2 bottles at a fixed price of \$75 each, shipping included. I trust you understand the necessity of this action.

To order Prostatol from our friends in Huvika, call their Toll-Free number at (877) 575-0141 or Fax number (619) 407-7517.

Join the Donsbach Foundation

Two years ago I made a decision to spend the remaining years of my life attempting to share the knowledge I have accumulated in 50 years of healing practice and support the philosophy of freedom of choice in health care.

For those of you who are interested in supporting our effort, you may join the Foundation as a member for \$20 per year entitling you to receive a newsletter and vote at annual meetings. This will not even cover the cost of printing and mailing our newsletter but my prime interest is to get the message of the fabulous benefits of wholism out to the public. I am looking for members of the Board of Governors who have a similar interest as I do. If you are sincere and can devote some time and money to this cause, please call me at (619) 475-9951.

For those of you who can afford it, any donation given to a 501 C-3 non-profit foundation is tax deductible. Again contact me for any information.

I challenge each and every one of you who reads this to join me in what must be done to keep what health freedom we have and to insure our future freedom of choice. It is interesting that most would wait until it affects them personally, then they feel violated. You can prevent such violation by joining the Foundation - most of you know I will keep my word on this and make it happen! Non-profit corporations cannot be for the benefit of the founder - have no fear, your money will be spent as I promise - on health freedom.

Special Note: You may download Dr. Donsbach's first foundation newsletter for free at www.letstalkhealth.com where you will find articles on:

- Olive Oil and Breast Cancer
- Fevers Are Good for You
- Heart Attacks & Job Stress?
- Your Morning Shower...
- Constipation
- New Uses for Soft Lasers

If you do not have internet access, please call our customer support agents at (888) 950-2190 and they would be glad to send you a printed copy.

HEAVY DUTY NYLON PORTABLE FAR-INFRARED SAUNA WITH OZONE GENERATOR

Dr. Donsbach's Far-Infrared Sauna not only has the purifying benefits of far-infrared sauna, but he has included an ozone machine to help the detoxification process.

"I have used ozone for many years and have found it is absolutely beneficial when used either as an ozone wet bath such as in a bathtub, or a 'dry' ozone bath when used in conjunction with a far infrared sauna. Although this is far from dry, since the inducement of perspiration is almost immediate. The contact of relaxed skin surface allows the ozone to penetrate into all parts of the skin surface and create wonderful detoxification of the skin - you will be absolutely amazed at the difference in your skin after just two or three times in the sauna." - Dr. Donsbach

Retail Price.....1850.00
Special Club Price.....1295.00

OZONE PURIFICATION SYSTEM

Purify the air of all toxins - purify water, meat, fish and vegetables - ozone insufflation - the beneficial properties of ozone are well-documented. The greatest property an ozone generator has is its ability to purify the air of all toxins. It is the product of choice to purify the air in surgical suites and hair salons with abundant toxic chemicals.

This offering comes complete with the portable Ozonator for use in kitchen and bathroom, an ozonating chamber for ozonating fruits, vegetables, meats and fish, plus a large whole house filter with a remote control for ozonating the air in your entire house. This is a tremendous bargain and belongs in every health-conscious household.
